Ricci-Maccarini (Cesena, Italy), A. Schindler (Milan, Italy), M. Stacchini (Cesena, Italy), F. Stomeo (Ferrara, Italy), M. Trebbi (Rimini, Italy), C. Vicini (Forlì, Italy).

PROGRAMME

Thursday October 22nd, 2020

8.00 a.m. Registration of participants

8.30 Introduction to the Course *M. Magnani*

8.45 Presentation of the case n.1

Live surgery: phonosurgery for removal of Reinke's edema
with "lifting" of the vocal fold mucosa
F. Pieri

9.45 Laryngoplasty through external approach *M. Magnani*

10.15 Diagnosis and treatment of glottic insufficiency *F. Stomeo*

10.45 Perceptual evaluation and self-assessment of dysphonia *A. Schindler*

11.15 Presentation of the case n.2

Live surgery: medialization laryngoplasty according to Montgomery
in glottic insufficiency for unilateral paralysis of the vocal fold
M. Magnani, M. Stacchini

21.15 Phonosurgery for congenital and acquired benign lesions of the vocal folds
M. Stacchini

12.45 Perioperative treatment of the voice disorder *T. Murry*

13.15 Presentation of the case n.3

Live surgery: Injection laryngoplasty with centrifuged autologous fat under fiberoendoscopy
in glottic insufficiency for unilateral paralysis of the vocal fold
A. Ricci-Maccarini, M. Stacchini

14.00 Laryngostroboscopic parameters *A. Ricci-Maccarini*

14.30 High-speed videoendoscopy of the larynx *T. Murry*

15.00 Presentation of the case n.4

Live surgery: phonosurgery for
removal of cyst of the vocal fold
M. Stacchini

16.00 Phonosurgery with the laser *F. Pieri*

16.30 Update on phonosurgery and office-based phonosurgery
M. Remacle

17.00 Closing session

Friday October 23rd, 2020

8.00 a.m. Types of voice therapy for benign voice disorders *T. Murry*

8.30 Presentation of the case n.5

Live surgery: fiberoptic phonosurgery for
removal of polyp of the vocal fold
G. De Rossi

9.15 Injection laryngoplasty under microlaryngoscopy *M. Trebbi*

9.45 Presentation of the case n.6

Live surgery: phonosurgery with CO2 laser for partial arytenoidectomy
according to Remacle in bilateral paralysis of the vocal folds
F. Pieri

10.45 Fiberoptic Phonosurgery *G. De Rossi*

11.15 Presentation of the case n.7

Live surgery: medialization laryngoplasty with Gore-Tex implant for glottic insufficiency
after cordectomy.
M. Stacchini, M. Ferrini

12.15 Robotic surgery of the larynx *C. Vicini*

12.45 Presentation of the case n.8

Live surgery: Injection laryngoplasty under microlaryngoscopy in glottic insufficiency
M. Trebbi

13.30 The PROEL Method in voice therapy before and after phonosurgery *A. Borragan*

14.00 ECM questionnaire
Closing session

Each phonosurgery intervention will be preceded by the patient's phoniatric assessment with videolaryngostroboscopy, perceptual evaluation of dysphonia, patient's self-assessment of dysphonia.

The lectures will be presented among the live phonosurgery interventions; the lectures of the foreign speakers and the speaker from Milan will be on-line. Coffee and lunch will be served without work break.
